

JONATHAN TANG

Hi there! I'm a passionate game developer in design, writing and programming. I am very dedicated to game design, architecture and development, and always strive to create high-quality work.

I am always eager to learn and grow, so I'm always open to more opportunities for so. Talk to me to find out more about my passions!

TECHNICAL SKILLSETS

UNITY 6 YEARS OF EXPERIENCE

- Built and authored UI and foundation frameworks
- Implemented UI elements with extreme precision, detail, and scalability
- Developed engine tools for designers and non-programmers
- Created multiplayer networking backend frameworks (dedicated servers)
- Integrated external APIs to facilitate communication with third-party applications
- Engineered render pipeline effects and features

UNREAL ENGINE 3.5 YEARS OF EXPERIENCE

- Built and authored UI and foundation frameworks
- Developed engine tools for designers and non-programmers
- Engineered massively multiplayer online networking servers
- Integrated external APIs to facilitate communication with third-party applications

REACT

Created own website,
Built frontend UI

CORE

Built and designed
award winning games

ADOBE AI

Vector art, UI
elements illustrator

EXPERIENCES & HISTORY

STREAMLINE STUDIOS

UNDISCLOSED AAA METAVERSE (UE5 + Unity)

- Authored the foundation and framework of the project
- Authored the overall UI and input system
- Developed the multiplayer foundation system and dedicated servers
- Educated fellow developers in both Unity and Unreal Engine
- Maintains code hygiene, authored documentation on code formatting
- Actively contributed to performance improvements and addressing bottlenecks
- Resolved bugs and implemented features efficiently within tight deadlines

GAME PROGRAMMER
OCT2022 - CURRENT

UNDISCLOSED DIGITAL TWIN (Unity)

- Implementation of point cloud data visualization
- Scripted rendering pipeline features and gizmos
- Created visual effects, particles and shaders
- Pipelined the digital twin synchronization and communication

JUNIOR GAME PROGRAMMER
OCT2021 - SEP2022

UNDISCLOSED AR PRODUCT (Unity)

- Led the full performance overhaul of the project
- Created test iterations and variations on the AR platform
- Collaborated closely with QA to identify and address major severities before deployment

FREELANCE

SKRICE STUDIOS - HEROES OF MAVIA (Unity)

- Implemented transactional system with checksum verification
- Online battle, replay and review features

GAME PROGRAMMER

VOLUNTEERING

GAME DEV HANGOUTS (Feb, June)

- Free-entry professional networking event for developers and students
- High turn-out rate of people and showcases (250+ attendees)
- Activity planning, sponsorships, event and crisis management

IGDA MALAYSIA
CHAPTER ASSOCIATE

GLOBAL GAME JAM MALAYSIA (2021, 2022, 2023)

- Active jam site organizer for Global Game Jam Malaysia
- Moderates and participates in the game jam as an active mentor

GLOBAL GAME JAM
MALAYSIA COMMITTEE

AWARDS

HADAL

Project Manager, Tech Generalist, UI, Networking, AI
